RECRUITMENT PACK

Managing partner – Jo Gilford

Senior Partner – Dr Gareth James

GP Clinical Lead – Dr Amy Butler

Danetre Medical Practice

danetremedicalpractice
Working together for better healthcare

THE PRACTICE

Danetre Medical Practice is a large GP Practice in Daventry which serves 12,980 patients. Based in the midlands it is an easy place to commute to (easy links with the M1, M45, M6, M40, M42).

THE AREA

Daventry District is a large, mainly rural area of 257 square miles in the west of Northamptonshire. It is the largest district in the county but, after Corby, has the second smallest population with approximately 78,000 residents – the majority of whom live among the district's 78 villages. The district which lies within the Milton Keynes/South Midlands Growth area has one town – Daventry.

THE SITE

The practice itself is located in close proximity to Daventry Town centre in a modern purpose-built Primary Care Facility (2006) and adjoins Danetre Community Hospital which offers a wide range of in patient and out patient services including x ray. The building has provided our team with a contemporary working environment which has allowed the Practice to flourish and we envisage continued growth and development in coming years.

Also attached to the Practice operating independently are a Boots Chemist and a Children's Nursery. The site has free car parking.

Take a virtual tour of our Practice by visiting our web site www.danetremedicalpractice.co.uk

OUR VISION

DMP 2020Vision

To be a compassionate and committed provider of clinical excellence where our staff are motivated to achieve their potential to deliver diverse, local, patient centred services

THE TEAM

We consistently perform well against NHS targets and are a High QoF achiever. The Practice is a dynamic one staffed by a hard working, enthusiastic and friendly team committed to providing high standards of care to patients as well as exploiting the opportunities that the continued evolution of the NHS brings. Effective communication and support of the team is core to our ethos and ensures that our work remains interesting and enjoyable.

The Practice has been an early adopter and innovator of many primary care developments and possesses a strong track record of innovation. Developments in recent years have included a number of highly successful specialist nurse practitioners (who undertake a lot of our visits) and chronic disease nurse posts which were unique to a General Practice setting.

In addition, our collaboration with other local health service providers has enabled us maximise partnering and working opportunities for the benefit of our patients and staff.

Allied to this, the Practice as a whole has a broad interest in medical leadership, education, training & Research. Partners have held: LMC Posts: Research Posts: Locality Board membership: in addition to leadership positions within medical education, GP appraisal and palliative care.

We count a 4 day week as a Full time position, allowing salaried GP's the opportunity to have 3 days a week (including weekends) away from the practice.

AWARD WINNING PRACTICE

- 2013 Named as being in the top twenty of Practices in the Country:** GP Practice Awards
- 2013 Winner of the Regional Research Team of the Year Award:** Leicestershire, Northamptonshire & Rutland
- 2014 Second in the prestigious HSJ national awards:** for the work DMP has done to maximise clinical research activity for the patients of their Practice.
- 2015 Named as one of only two Practices to be accredited with Leadership Status:** National Institute for Clinical Research
- 2016 Awarded OUTSTANDING in Well Led domain:** Care Quality Commission

- 2018 In the top six of the Country for Surgery of the Year people's choice award GP Practice Awards
- 2019 Received award for extra effort and outstanding services to General Practice from the Local Medical Council

REASON FOR VACANCY

Our continued growth has given us the opportunity to reassess our strengths and look to the future. As a result, we now looking for a four/six session salaried GP who is flexible, enthusiastic and motivated to join the team. Hopefully they will play an active part in strengthening our pedigree for innovation, and training, ensuring that it remains central to our ethos.
